

# My Hobbies & Interests

# My Interests

I love to write songs and sing.

My appearance is very important to me. I like to look good and wear glamorous clothes. I have had a lot of plastic surgery over the years. As I always say it costs a lot of money to look this cheap!

My Dad was a very clever man but he was illiterate. Because of this literacy is very important to me and I developed an interest in helping children improve their reading skills. I established the Imagination Library through my Dollywood Foundation. The library operates in USA, Canada, UK, Ireland and Australia and sends out one million books per month to children aged 0-5yrs old.
