2 Report summary

2.1 Situation

This report is presented to enable discussion on the NHS Highland financial position at Month 11 (February) 2025/2026.

2.2 Background

NHS Highland submitted a financial plan to Scottish Government for the 2025/2026 financial year in March 2025. This plan presented an initial budget gap of £115.596m. When cost reductions/ improvements were factored in the net position was a gap of £55.723m. The Board received feedback on the draft Financial Plan which requested submission of a revised plan with a net deficit of no more that £40m. A revised plan was submitted in line with this request in June 2025 and this revised plan was accepted by Scottish Government.

The Board continues to be escalated at level 3 within the NHS Scotland Escalation Framework. Work continues internally and with the support of SG to improve the financial position by identifying opportunities and implementing new ways of working which will support a move to financial balance.

2.3 Assessment

At the end of February 2026 (Month 11) a year to date overspend of £48.928m is reported. A year end overspend of £40.000m is forecast at this time. An overspend of £20.859m within ASC is included in this forecast. The position has improved from Month 10 following confirmation of a £5.000m contribution from Highland Council to support the ASC position. The overall Board position has been mitigated in part by £10.000m of additional funding received from Scottish Government.

A review of delivery against targets for identified value and efficiency schemes has been undertaken with operational units now forecasting in line with V&E deliverables. Mitigating actions to close the gap between plan and forecast, previously reported, have been factored in to the central position.

Within the Highland Health & Social Care Partnership a year to date overspend of £26.965m is reported with this forecast to reduce to £22.650m by the end of the financial year. The forecast position includes an overspend of £20.859m within ASC.

2.4 Proposed level of Assurance

Comment on the level of assurance

It is only possible to give limited assurance at this time. The position reported aligns with the Scottish Government expected position but still presents a position with is significantly adrift from financial balance.

3 Impact Analysis

3.1 Quality/ Patient Care

The impact of quality of care and delivery of services is assessed at an individual scheme level using a Quality Impact Assessment tool. All savings are assessed using a Quality Impact Assessment (QIA).

3.2 Workforce

There is both a direct and indirect link between the financial position and staff resourcing and health and wellbeing. Through utilisation of the QIA tool, where appropriate, the impact of savings on these areas is assessed.

3.3 Financial

Scottish Government has recognised the financial challenge on all Boards for 2024/2025 and beyond and are continuing to provide additional support to develop initiatives to reduce the cost base both nationally and within individual Boards. NHS Highland continues to be escalated at level 3 in respect of finance.

3.4 Risk Assessment/Management

There is a risk associated with the ongoing delivery of the Value & Efficiency programme. The Board continues to review this position and seeks to develop further plans to generate cost reductions/ improvements and seek mitigating actions which support the current forecast.

3.5 Data Protection

There are no Data Protection risks associated with this report.

3.6 Equality and Diversity, including health inequalities

An impact assessment has not been completed because it is not applicable

3.7 Other impacts

None

3.8 Communication, involvement, engagement and consultation

The Board has carried out its duties to involve and engage both internal and external stakeholders where appropriate through the following meetings:

- Executive Directors Group – via monthly updates and exception reporting
- Monthly financial reporting to Scottish Government

3.9 Route to the Meeting
